Summary

With over 3 years of experience as a Digital Product Manager and Electronic Platform Specialist at Nordic-Baltic Support, I have honed my skills in managing digital products and ensuring seamless platform functionality. My prior experience as a Data Entry Specialist at Nordic-Baltic Outsource has provided me with the discipline and attention to detail that is essential for success in the tech industry.

My unique educational experience has equipped me with a strong foundation in problem-solving and a keen understanding of technology, allowing me to excel in various roles throughout my career.

As a recent graduate of the Baltic Institute of Technology's FE Developer program, I have gained valuable expertise in Javascript, HTML, CSS, React.js. As a self-motivated and intellectually curious individual, I am eager to leverage my junior-level skills to create innovative web solutions.
